

Pond **DYE**

TREAT PONDS *Naturally*

ATTRIBUTES

- All natural, safe, and biodegradable
- limit sunlight penetration
- Eco-friendly with no added sulfates
- More concentrated bag, means fewer needed
- Easy to use and rapidly disperses color
- Keeps water temperature lower

WHEN TO USE

- Pond appears dull, cloudy, or dirty
- To improve aesthetics of pond
- Along with AquaSphere®PRO

DIRECTIONS

1 | CALCULATE VOLUME

LENGTH

x

WIDTH

x

DEPTH

x

7.5

TOTAL GALLONS

2 | SELECT DOSAGE

Pond dyes are available in three sizes

- 5 oz. water-soluble bag
- Pourable granules
- 2.6 oz jar

Treat to the correct volume

Add one 5 oz. water-soluble bag for every 500,000 gallons of water.

Example: a 1,000,000-gallon pond requires two 5 oz. water-soluble bags per treatment.

One dose treats for 30 days

3 | TREAT

Apply bags and/or granules from upwind to aid in dispersion

Gently toss bag(s) into middle of water

Evenly distribute multiple bags

Allow 24 hours for full dispersion

Follow all label instructions

Repeat every 30 days, or as needed, to retain desired color
