CONTENTS - Fibre Optic Tree + metal folding stand, with 3 eye bolts and low voltage adaptor.

Open folding stand to 90 degrees until the eyes holes on the center pole are aligned.

Insert and gently screw the 3 bolts into the aligned eye holes.

Place stand in desired location on a level surface, then insert the stem of the tree into the central section of the metal stand. Screw and tighten the eye bolts securely.

Shape the branches of the tree, insert electric adaptor plug into the socket on the light chain cable, connect electric plug end to electric outlet and enjoy your tree!
