

FRONT

INSTRUCTIONS

FOR INITIAL USE:

1. Plan and move Misting product to location of use. (Refer to CARE instructions below.)
2. To protect surfaces, place Misting product into protective tray 30" diameter x 2" deep. (Not Included).
3. Place electrical cord outside of product reservoir and tray.
4. Fill Misting product with tap water as directed below.
5. Insert electrical plug into electrical outlet to power full light and water vapor effects.

CARE:

1. Please read and follow all instructions and warnings both on the instructions and on the product carefully before use.
2. This product is to be used only as intended as outlined on these instructions.
3. For Indoor or covered Outdoor use.
4. If used outdoors, connect the product to a Ground Fault Circuit Interrupting (GFCI) electrical outlet that is weatherproof.
5. If used outdoors, keep out of in-climate weather conditions.
6. This product is not intended for permanent installation or use.
7. Do not mount or place near gas or electric heaters, fireplaces, candles or other similar sources of heat.
8. Do not secure the wiring of this product with staples or nails, or place on sharp hooks, nails or in a manner that can cut or damage the wire or insulation.
9. Unplug the product when leaving the house, when retiring for the night or if left unattended.
10. This is an electric product and not a toy! To avoid risk of fire, burns, personal injury and electric shock it should not be played with or placed where small children can reach it.
11. Do not hang objects from the power cord.
12. Do not close doors or windows on the product or extension cords as this may damage the wire and insulation.

WARNING: The power unit that comes with the product is intended to be correctly orientated in a vertical or floor mount position. Install only to a covered Class A GFCI receptacle that has an enclosure or that is weatherproof.

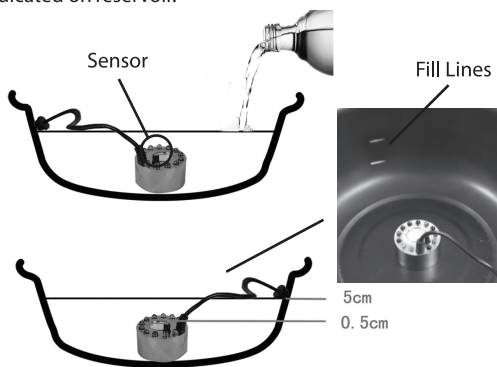

WARNING: Risk of Electric Shock. Mount the unit at a height greater than 1 foot from the ground surface.
