

Van Zyverden's
TULIP PERSIAN PEARL

Tulips are the indispensable blooms of the spring garden, as they bring it to life! They are unique in the range of size, shape, and bold color found in almost every color spectrum, that only tulips provide. Tulips are suitable for a wide range of plantings, are excellent in the rock garden, in formal beds, as elegant cut flowers, and for containers. They can be used in nearly any garden design scheme. Flowers are upward facing, with linear to lance-shaped green leaves on the stem. Tulip descriptions can become quite technical, as they are grouped into 15 different divisions, describing the petals, stamens, and leaves in detail. Plant several different varieties of tulips throughout the garden to extend the blooming time.

*Magenta-rose with
a bright yellow heart*

*Also known as
Specie or Rock garden tulips*

Award winner

About This Variety: Persian Pearl tulips are an early flowering variety, producing starry magenta single blooms with a silver flush and grey-green foliage. Originally from Asia these specie tulips are known to perennialize better than most tulips. Best planted in larger groupings, drifts planted closely together. The bulbs are small, as they should be, yet so rewarding.

Growing Instructions: To ensure optimal results, allow adequate space and sunlight, plant at the appropriate depth, and feed with a well balanced fertilizer. Remove the flowers as soon as they fade, but allow the leaves to yellow before removing. Best planted in late fall. Some gardeners treat tulips as annuals. For an informal look, plant in groups in natural swathes or bouquets.

Care Tip: In USDA zones 8-10, refrigerate the bulbs for no less than eight weeks. In the garden, plant them before frost, but not as early as in the northern part of the country. Planting them in a lightly shaded area will keep them cool and prolong blooming.

Exposure: Full sun to partial shade

Height: Grows 8" tall

Spacing: Plant 2-4" apart, 2-4" deep

USDA Zones: Hardy in USDA zones 3-7

Guaranteed to grow 1 year from purchase if directions are followed. Any concerns related to quality and/or counts feel free to contact us.
