

3' x 5' x 6' Apex Storage Shed

From garden supplies to folding lawn chairs, you can store and protect it all in this strong and durable patio storage shed by Hanover. With 9.5 square feet of internal floor space, this compact shed is constructed with powder-coated, galvanized steel which is resistant to rust, corrosion, and UV rays.

Two tool racks provide elevated storage options to maximize space. The apex roof design allows efficient water and snow runoff to keep everything nice and dry all year long. Front double-doors open fully to allow easy access and are secured with a twist-lock and key.

For all your outdoor storage needs, depend on quality products from Hanover.
