

19' x 10' Arch-Roof Carport

Rain, snow, UV rays, - protect your car from the elements with the all-weather Arch-Roof Carport by Hanover.

Constructed with aluminum framing and polycarbonate roof panels, our freestanding design allows you the freedom to place it wherever you want. The durable aluminum frame and posts are resistant to rust and corrosion, while the gentle curve of the roof allows efficient water runoff into the built-in gutters for proper drainage.

Stronger and lighter than glass, the opaque polycarbonate panels are high-impact, shatter resistant, and block harmful UV rays. With an elegant arch design and six anchored posts, the Hanover Arch-Roof Carport will look stylish and stay stable while protecting your vehicle year round.

Features

- Arch-roof carport protects 1 car year-round from the elements (19' D x 10' W x 7.2' H)
- All-weather materials resist rust, corrosion, and UV rays
- Aluminum construction with high-performance powder coating
- 6 strong, durable posts with Y braces and full-feet anchor kits for secure installation
- Double-walled polycarbonate panels block harmful UV rays (0.2 inches thick)
- Arched roof allows efficient water runoff into the built-in gutters for proper drainage
- Ribbed ceiling design with 9 ribs for extra stability (200-lb. snow weight capacity)
- Full assembly required - hardware and instructions included
- NOTE: Concrete slab or stone foundation is recommended to properly anchor structure
- **Model: HANCARPRT19X10-GRY**
