

HEALERS

MEDICAL SOLUTIONS FOR PETS

Innovation | Protection | Recovery

"Our passion is to create innovative products that improve wellness, comfort and recovery for pets around the world"

Terri Entler, Founder & CEO

HEALERS GOLDEN TURMERIC PASTE

What makes our turmeric unique:

We know our partner farm, Biolley Farms, and the farmers behind our products. When you purchase Healers turmeric, you are providing much-needed employment opportunities in one of the poorest regions of Costa Rica. Biolley supplies organic cultivation education to turn district farms into organic food forests, offers workforce opportunities and employment security, and creates potent, fresh, small-scale boutique crops for select distributors. Its vision is to maintain healthy farms by teaching farmers about soil and how to ferment organic teas for crop nutrition. It grows a variety of bird-friendly shade and fruit trees, cultivates roots and spices for soil health, and works to form and preserve a protective rainforest alliance.

Healers Golden Paste: Key Benefits for Your Pet

- Anti-inflammatory
- Powerful antioxidant
- Helps to fight cancer
- Relieves arthritis pain
- Supports normal immune responses
- Supports healthy digestion and gut defense
- Curcumin can replace steroids for allergy and joint pain relief

Turmeric is a powerful antioxidant. Antioxidants can slow aging and degeneration, and even increase your pet's lifespan. Always ask your veterinarian before giving supplements to your pet.

Recommended dosages:

- Small dogs should start with about 1/4 teaspoon per day Gradually increasing to 1 teaspoon per day
- Medium dogs should start with 1/2 teaspoon per day Gradually increasing to 2 teaspoons per day
- Large dogs should start with 3/4 teaspoon per day Gradually increasing to as much as 3 teaspoons per day
- Extra-large dogs should start with 1 teaspoon per day, gradually increasing to as much as 1 tablespoon.
