

BodyGuard™ Fly, Flea, Tick and Insect Repellent

Curicyn BodyGuard Fly, Flea, Tick and Insect Repellent is 100% non-toxic to humans and animals. Other leading brands require their liquid product to come into direct contact with pests, but BodyGuard works via “vapor” transmission to olfactory receptors in the pests. This means less product needs to be applied to the animal. Tests by a leading U.S. university showed that our formulation is three times as effective as other major brands.

5 Size Options Available:

- 2 oz. Spray Bottle (companion pet application; travel size)
- 8 oz. Spray Bottle (companion pet application)
- 24 oz. Adjustable Trigger Spray Bottle (large animal or companion pet; most universal package)
- 1 gal. Refill Bottle (large animal or companion pet)
- 1.33 gal. Pump Spray Bottle (large animal or livestock)

Our formula's advantages

- Innovative essential oil-based fly repellent (Geraniol), a “minimal risk” pesticide which poses no risk to humans or animals
- Non-offensive odor
- Scientifically proven to be 3x more effective than leading brands
- Repels nuisance insects such as flies, fleas, ticks and mosquitoes
- Causes insects to retreat instantaneously from the animal
- Variety of sizes for multiple uses
- High-quality sprayers
- Cost-effective
- Fly, flea and tick formula is safe and effective for both large animals and companion pets

- DEET-Free
- Permethrin-Free
- No Harsh Odors
- Natural Botanical Oil-Based Formula
- Use on Horses, Cattle, Pets and All Animal Species
- Highly Effective!

“Just received and used right away! We are in a small barn (20 horses) and there is no fly control other than bags/strips. The fly population has gotten so bad over the years. This fly spray seems to be keeping the flies away from my horse. I already recommended to others at my barn. Great spray bottle!”
