Proper Care Instructions

If left untreated, the wood will naturally weather. To preserve and maintain the original finish, we recommend that a light lacquer coating be applied every 4 to 6 months depending on the seasons. During a long periods of non-use, store cooler in covered and dry place. For the least maintenance, use under covered area.

We recommend a exterior poly-urethane product that features a clear satin or semi-gloss finish and a fast drying process.

Proof of purchase (date register receipt) and photos will be required for warranty claims.

For any questions or claims, please contact customer service.
