

Introducing AIR FORCE QUICKDRAW® Mini

More and more dog owning consumers are purchasing pet dryers and grooming tools to use at home in between grooming appointments.

Dog dryer vs. Human hair dryer:

The whole principle behind using the AIR FORCE QUICKDRAW Mini over human hair dryers is efficiency and safety.

- AIR FORCE QUICKDRAW Mini is 5 times more powerful than human hair dryers. Super powerful airflow dries hair from the base of the follicle to the top of the hair/fur for quick and thorough drying
- Human hair dryers are entirely too hot for pets and dry hair/fur from the top of the hair/fur and then down to the scalp causing the coat to become brittle. High heat emitted from human hair dryers can cause dry skin, scalp irritation, and sores.
- AIR FORCE QUICKDRAW Mini does not utilize a physical heating element. The warm air is generated by the friction of the motor creating “gentle heat” (approximately 25-30 degrees above ambient). The combination of gentle heat and powerful airflow makes drying pets quick, easy and safe.

Construction: Sturdy All Steel Baked Enamel Finish

Motor: .75 Peak HP Motor

Air Flow: 70 CFM

Amps: 4.5 Amps

Volts: 120 Volts

Cord: 12 Ft. 3 Conductor Cord

Attachments: Air Concentrator Nozzle, Air-Flare Nozzle

Weight: 2.7 lbs.

Deliberately Made Better in the USA®

*****READ ALL INSTRUCTIONS BEFORE USE*****

**AIR FORCE QUICK DRAW Mini
Model PED-500**

The Air Force Quick Draw Mini is designed to cut drying time by as much as 75%. It provides Gentle Heat and dramatic air velocity to dry pets quickly and thoroughly.

1. Insert the grounded Power Supply Cord (D) into a grounded three conductor outlet.

IMPORTANT: PRODUCT MUST BE GROUNDED.

WARNING: IMPROPER CONNECTION OF THE EQUIPMENT GROUNDING CONDUCTOR CAN RESULT IN A RISK OF ELECTRIC SHOCK!

2. Start your Quick Draw Mini by pushing the toggle On/Off Switch (C) UP FOR On and down for Off.

HOLD THE DRYER BY THE HANDLE

3. The Air Concentrator (C) and the Air Flare (G) also fit directly at the end of the steel tube

PLEASE NOTE:

DUE TO THE TREMENDOUS VELOCITY OF AIR PRODUCED BY THE AIR FORCE QUICK DRAW, YOU MAY EXPERIENCE SOME AIR VENTING BY THE SEAMS, THIS IS COMPLETELY NORMAL AND HELPS KEEP THE UNIT RUNNING EFFICIENTLY.

FILTER LIFE IS DEPENDENT ON USAGE. CHECK AND REPLACE WHEN REQUIRED.

CAUTION: DO NOT DROP THIS APPLIANCE. MOTOR MALFUNCTION CAUSED BY PRODUCT BEING DROPPED IS NOT COVERED UNDER WARRANTY.
