About Us.....

Dear Customer,

For more than 75 Years, Olympia Sports has been producing Sports, Work, Casual and Lifestyle Gloves and Mitts for the Global Hand Wear Industry. Since day 1, our relentless pursuit for Perfection has remained constant.

What's our Secret? We're Glove People, inside and out. Gloving leather is an Art that dates back to the 17th Century and it's a Craft we have Mastered with Technical Expertise that is beyond compare.

On the pages to follow, I personally invite you to learn more about us and our history. Then Explore the Premium Glove Collection we have Created as Licensee for Wolverine Worldwide. See for yourself both the benefits and the advantages In adding this Dynamic new product group to your current assortment.

Thank you. It would be our pleasure to Build Fantastic Gloves for you.

Cheers,

**Jeffrey A. Lee - EVP
Olympia Sports, Inc.

Wolverine Worldwide
Hand Wear.**

Today

At Wolverine, we proudly work with our hands, day in and day out, and we believe that a well-built, high performance pair of Premium Leather gloves is a natural extension of one's own personality and individuality.

There is a significant, class-based distinction between wearing ordinary work gloves, versus the Premium Gloves Created as Wolverine.

Our Precision Fit Technology aligns with the natural Shape and Curve of the hand to reduce hand fatigue, promote finger flex, and enhance durability.

3.

Work Tough – Work Safe

Every rein, rope, and tool you hold begins with a grip. Wolverine Trade/Work Gloves Provide Superior Touch, Feel, Dexterity and Long-wear Durability.

Since 1941.....

Through Modest, Humble Beginnings and a Passion for Excellence, Olympia Gloves has Evolved into one of the Worlds Most Respected Purveyors of High-Performance Hand Wear.

5.

Manufacturing

Each of the 40-50 steps in creating a Wolverine Glove is meticulously handled by our team of glove professionals.

The finishing process is overseen by our QC and QA teams to guarantee that the final out-come reaches our exacting standards.

It is the Process between a great idea and the finished product – that is the Magic of Wolverine Gloves.

WOLVERINE 

Technology

Every decision we make regarding fabrics, hides, membranes and insulations is to ensure that every finished glove meets our expectations and in turn, drives consumer confidence.

Hold Fingers Together—Measure your right hand around the knuckles with your hand flat

Do Not Include Thumb

Why is FIT so Important?

Ill-fitting gloves are one of the primary causes of more than 1 million hand injuries that are sustained on the job site each year. Every Rein, Rope and Tool you grab begins with a grip and Wolverine Gloves are built to help prevent hand injuries, Promote finger-flex, and provide long-wear performance durability.

Care Guidelines

- Machine Wash – Cold Water
- Air Dry only
- Do not iron, bleach, or dry clean.

What is COOLCORE® ?

Lots of companies make cooling fabrics. Many use Sprays and Chemicals that can wash out and are unsuitable for the Environment. Others simply do not get the job done. That got us Thinking.....

Wouldn't it make sense to create a Durable Work Glove that wicked away sweat and cooled hands without the need for spray-on, environmentally unsafe chemical's? After months of Extensive Research, we found COOLCORE.

COOLCORE is a patented, breakthrough cooling fabric that, when lined inside our Gloves, retains its cooling capabilities longer than any other fabric. COOLCORE helps people all over the world get the most from their active, busy lives by providing lasting comfort so you can work *Longer and Stronger*.

What is Precision Fit Technology?

At first glance of our Wolverine Gloves, one might mistake them for a pair of Fashionable Leather gloves. Good news is they perform even better than they look. *Precision Fit Technology*, is a new Innovation that sets the Industry Standard for how a Premium Work Glove Should Fit and Perform with lasting Durability.

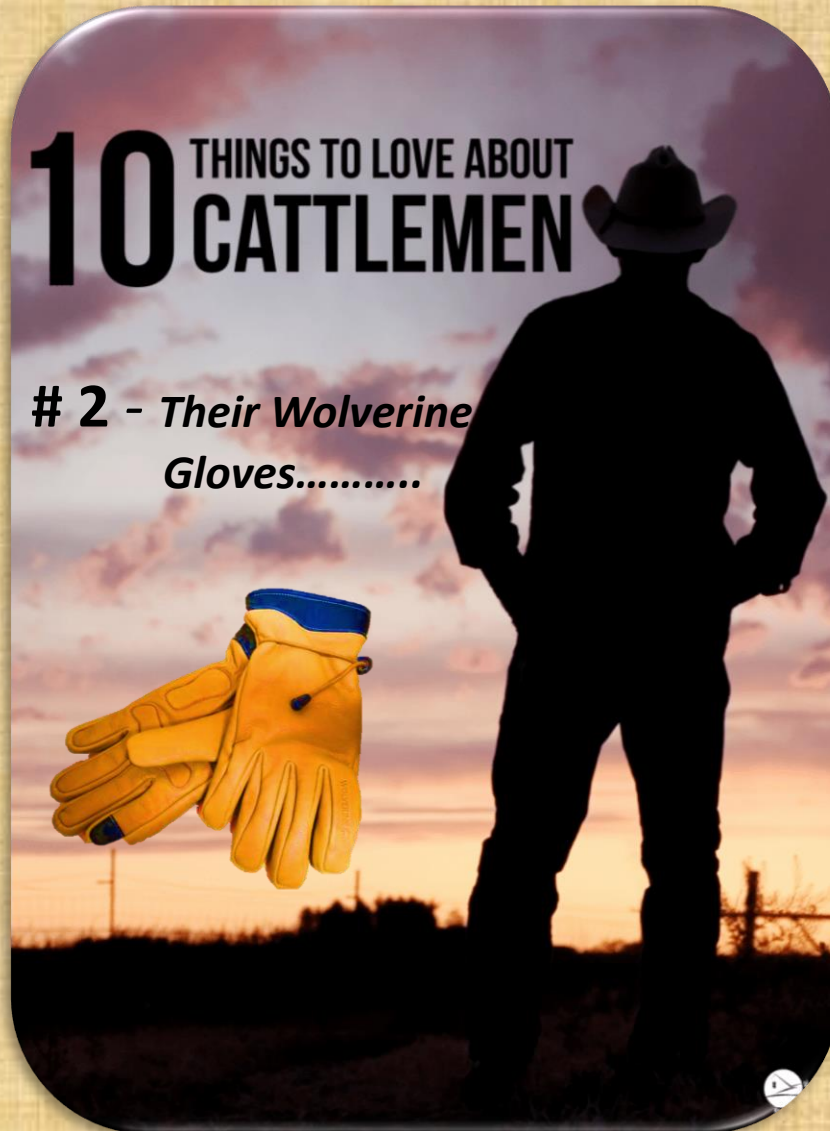

Designed Exclusively for Wolverine, Each style is engineered on a Functional Curve Pattern to reduce hand fatigue while the Radial Cut Palm Design eliminates material gathering and enhances finger flex. Add to this the quality of our Hides, Raw materials, and Workmanship, and you have a glove that lives up to it's Catchphrase;

Essential Gear for Hands
