## EMAX Premium features & why

\*indicates standard features

\* Industrial Grade 1750RPM Electric Motors

**EMA** 

\*Patented Pressure Lubricated 2-stage cast iron pump with dual control design allows for automatic or continuous run rated at up to 70,000 hours, re-useable oil filter, pressure gauge

Belt tension adjustor for fast, easy one-turn design reduces vibration and extends belt life

2 in. raised pump platform keeps the oil cool within the pump

Continuous mode functionality is for workloads over 50% duty cycle eliminates wear and tear on your magnetic contactor

\* Pre-wired magnetic starter provides under voltage and overload protection and an automatic cutoff in the event of a power failure - \*7.5HP and up

200PSI ASME Powder Coated Tanks

Auto tank drain 110volt dual is timer controlled and eliminates daily maintenance

\*Oil drain valve for easy maintenance

\*4 way pressure switch

\*16 Gauge steel OSHA approved

Additional Features:

belt guard

Most units ETL certified

 Extended Lifetime Pump warranty

The optional Whisper100 dissipates compressor intake noise by channeling the intake air through a series of baffle plates. This low-profile system adds 4 levels of air filtration along with making the compressor quiet, lowering the decibels by more than 35%.
