WITH SILENT AIR TECHNOLOGY

EMAX Compressor 350 series provides all the quality without all the added cost the features can add. EMAX has designed a revolutionary air system like no other! Engineered and manufactured in the USA our patented Silent Air System dissipates compressor intake noise by channeling the intake air through a series of baffle plates. This low-profile system adds 4 levels of air filtration along with making the compressor quiet, reducing noise levels by as much as 50%. Now that's being seen but not heard! Our Industrial Plus series come with standard features and only the best quality components. All backed by the best warranty in the industry.
