

EMAX Premium features & why

* indicates standard features

* Industrial Grade 1750RPM Electric Motors

* Patented Pressure Lubricated 2-stage cast iron pump with dual control design allows for automatic or continuous run rated at up to 70,000 hours, re-useable oil filter, pressure gauge

Belt tension adjuster for fast, easy one-turn design reduces vibration and extends belt life

2 in. raised pump platform keeps the oil cool within the pump

* Pre-wired magnetic starter provides under voltage and overload protection and an automatic cutoff in the event of a power failure - *7.5HP and up

Continuous mode functionality is for workloads over 50% duty cycle eliminates wear and tear on your magnetic contactor

* 200PSI ASME Powder Coated Tanks

Additional Features:

- * 16 Gauge steel OSHA approved belt guard
- * 4 way pressure switch
- * Oil drain valve for easy maintenance
- Most units ETL certified
- Extended Lifetime Pump warranty

The optional Whisper100 dissipates compressor intake noise by channeling the intake air through a series of baffle plates. This low-profile system adds 4 levels of air filtration along with making the compressor quiet, lowering the decibels by more than 35%.

Auto tank drain 110-volt dual is timer controlled and eliminates daily maintenance
