

THE EMAX DIFFERENCE

At EMAX Compressor we are so confident in our design, our components and our workmanship that we guarantee that our compressors are the best quality compressors on the market today! We have been manufacturing compressors right here in the USA since 1977 and have over 90,000 units in service being used by hard-working people who rely on their EMAX compressor every day to get the job done.

Our EMAX compressors are designed & built to be used in a variety of commercial & heavy industrial applications such as: body shops, machine shops, sand-blasting shops, car washes, wood-working shops, dry cleaners & many other uses.

What sets EMAX apart? That's easy – expert experience in the air industry, innovative product design, the highest quality components, quietest working compressors, professional workmanship, and our commitment to excellence and a guarantee to stand behind our product!

Our EMAX compressors have more standard performance features than any other compressor on the market today!

We're confident that when you compare our compressor's components, features & performance specifications against any other unit in the industry - you'll see that quite simply ... nothing beats a EMAX compressor!

In fact, we are so confident in our belief that our compressors are the best quality compressors on the market today that with your purchase of a EMAX compressor - we offer a warranty unlike any manufacturer in the industry.

5-Year Bumper-to-Bumper Extended Parts Warranty
