Feeding Directions

- Feed intake will vary based on animal body size and life stage, level of activity and environmental temperature.
- Toss diet onto the water, where the splashing may induce the feeding response.
 - o Feed to young, rapidly growing crocodilians to satiation.
 - o Adult crocodilians can be fed to body condition.
- The product may also be tossed directly into the animal's mouth for training.

IMPORTANT: A feeding program is only as effective as the management practices followed. Always provide reptiles with adequate natural light or a light source which supplies sufficient UV radiation between the wavelengths of 280 and 315 nm.
