

DIRECTIONS FOR USE

1. Optimal canister temperature is 40°-90°F. In cold weather, keep product indoors before hunting and inside coat pocket before use.
2. Shake container for 10 seconds, point valve opening downwind AND away from face during usage.
3. Partially depress tab for short bursts OR lock down to empty can (approximately 90 seconds).
4. Particles will blow downwind attaching to leaves, trees, brush and crops creating a natural scent barrier between hunter and animals approaching from downwind. Get creative (mix scents, create mock scrapes, scent trails, or use with decoys).

WARNING!

Use only as directed. EverCalm Bomb is not designed to be used on skin or clothing.

CAUTION! CONTENTS UNDER PRESSURE

Do not puncture or incinerate container. Do not expose to heat or store at temperatures above 120° F.

FIRST AID

In case of eye contact: flush with water for 5 to 10 minutes. For skin contact: wash with soap and water. Avoid inhaling, if overcome by vapors, move to fresh air. If swallowed, do not induce vomiting and contact physician immediately.
