

Mazuri® Alpaca Performance

(Available through a Mazuri® retailer)

Formula Code – 56KC

Description

Mazuri® Alpaca Performance is formulated for optimal nutrition for growing, gestating, lactating, and fiber-producing alpacas. This diet is designed to be fed with free-choice grass hay and/or pasture.

Features and Benefits

- **Contains probiotics** to support gastrointestinal and immune health
- **Antioxidants, including selenium yeast**, to support health and performance
- **Contains beet pulp, healthy starch levels**, and additional ingredients **to support gastric health and proper gastrointestinal pH**
- **Enhanced mineral-amino acid complexes** for optimal mineral availability
- **Increased levels of flaxseed** (compared to other Mazuri® Alpaca feeds)
- **Formulated by Ph.D. Nutritionists**, in collaboration with **leading alpaca specialist Dr. Norm Evans, DVM**
- **Manufactured in an ionophore-free facility**

Product Form

Pelleted feed: 5/32" diameter x 1/2" length

- 40 lb net weight paper sack

Catalog

3005470-205

Guaranteed Analysis

Crude protein not less than	12.0%	Phosphorus not less than	1.00%
Crude fat not less than	4.0%	Salt not less than	1.00%
Crude fiber not more than	20.0%	Salt not more than	1.50%
Starch not more than	10.0%	Sodium not more than	0.81%
Ash not more than	11.0%	Selenium not less than	1.50 ppm
Calcium not less than	2.00%	Selenium not more than	1.80 ppm
Calcium not more than	2.50%		
Total Microorganisms not less than	270,000 CFU/g		

(Lactobacillus acidophilus, Lactobacillus casei, Bifidobacterium thermophilum, Enterococcus faecium)*

*Contains a source of live (viable) naturally occurring microorganisms.

Ingredients

Ground Soybean Hulls, Wheat Middlings, Dried Plain Beet Pulp, Ground Flaxseed, Yeast Culture, Cane Molasses, Dehulled Soybean Meal, Lignin Sulfonate, Dicalcium Phosphate, Biotin, Salt, Soybean Oil, Calcium Carbonate, DL-Alpha-Tocopherol Acetate (Vitamin E), Thiamine Mononitrate, Calcium Propionate (a preservative), Zinc Methionine Complex, Seaweed-Derived Calcium, Cobalt Carbonate, Magnesium Oxide, Artificial Flavors, Zinc Oxide, Manganese Sulfate, Dried Lactobacillus acidophilus Fermentation Product, Dried Lactobacillus casei Fermentation Product, Magnesium Oxide, Dried Bifidobacterium thermophilum Fermentation Product, Choline Chloride, Nicotinic Acid, Dried Enterococcus faecium Fermentation Product, Vitamin A Acetate, L-Ascorbyl-2-Polyphosphate (Vitamin C), Selenium Yeast, Pyridoxine Hydrochloride, d-Alpha Tocopheryl Acetate (Vitamin E), Preserved with Mixed Tocopherols, Rosemary Extract, Manganous Oxide, Citric Acid (a Preservative), Calcium Pantothenate, Ferrous Carbonate, Riboflavin Supplement, Copper Sulfate, Folic Acid, Vitamin B12 Supplement, Zinc Sulfate, Zinc Amino Acid Complex, Manganese Amino Acid Complex, Sodium Selenite, Calcium Iodate, Copper Amino Acid Complex, Cobalt Glucoheptonate, Cobalt Carbonate

Feeding Directions

To be fed with free-choice grass hay or pasture. Feed alpacas 0.5 to 1% of their body weight daily. These feeding amounts are guidelines and should be adjusted based on environmental temperatures, body condition, level of activity or fleece production, and life stage; consult a nutritionist or veterinarian for guidance for individual animal needs.

- For **fiber production**, or females in **early gestation**, feed at 0.5% of body weight (next page).
- For **late-gestation** females, or **Suri** alpacas, consider feeding 25% more **Mazuri® Alpaca Performance**.
- For **lactating females**, consider feeding 25 to 50% more **Mazuri® Alpaca Performance**.
- If more energy intake is needed, transition alpacas to **Mazuri® Alpaca Complete Life**.

Caution: Follow label directions: Feeding added selenium at levels in excess of 0.3ppm in the total diet is prohibited.

DO NOT FEED TO SHEEP - DUE TO HIGH CONCENTRATIONS OF SUPPLEMENTAL COPPER.
