## Interpupillary Distance Adjustment

The distance between the eyes, called “interpupillary distance” (IPD), varies from person to person. To achieve perfect alignment of lens to eye, follow these steps.

1. Hold your binocular in the normal viewing position and look at an object in the distance.
2. Grasp each of the binocular barrels firmly. Move the barrels closer together or further apart until you see a single circular field.

## Focusing

After adjusting the interpupillary distance, follow steps below to focus the binoculars.

1. Close your right eye and look at an object in the distance through the left eyepiece with your left eye. Rotate the center focus until image is clear.
2. Close your left eye and look at the same object in the distance through the right eyepiece with your right eye. Rotate the right eye diopter until the image is clear.
3. Look through the binocular with both eyes and image should be clear, rotate the center focus for any further image adjustments.

## Eye Cups

The binocular is designed with twist up eye cups for your comfort. To exclude extraneous external light thus providing improved field of view.

### Eye Cups Down

Sunglasses / Eyeglasses Wearers

### Eye Cups Up

Non Sunglasses / Eyeglasses Wearers

## Tripod Adapter Fitting

The binocular is equipped with a built in tripod adapter fitting. Carefully unscrew the cover screw located at the base of the binocular hinge to expose the threaded mounting socket for the tripod adapter to attach to. Tripod adapter NOT included.

## Care and Cleaning

### Care

If handled with care, this binocular will provide years of trouble-free service. Like any fine optical instrument your binocular should be given sensible care.

- Keep the lens covers on the lenses when binoculars are not in use.
- Store binoculars with the eye cups down.
- Avoid banging and dropping.
- Store in a cool, dry place.

### Cleaning

- Blow away any dust or debris on the lens (or use a soft lens brush)
- To remove dirt or fingerprints, clean with a soft cotton cloth rubbing in a circular motion. Use of a coarse cloth or unnecessary rubbing may scratch the lens surface and eventually cause permanent damage.
- For a more thorough cleaning, photographic lens tissue and photographic-type lens cleaning fluid or isopropyl alcohol may be used. Always apply the fluid to the cleaning cloth never directly on the lens.

NEVER attempt to clean your binocular internally or try to take it apart.

**DO NOT use this optical product to view the Sun or any light source. CAUTION: Viewing the Sun can cause permanent eye damage.**

BARSKA reserves the right to modify or discontinue, without prior notice to the purchaser, any model or style of the product. BARSKA will determine, at its sole discretion, whether a product will be repaired or replaced. BARSKA reserves the right to discontinue or change any feature of its products at any time. If an exact replacement or product is not available, BARSKA reserves the right to provide a part or product that matches as closely as possible.

#### **LIMITATION OF REMEDIES**

BARSKA disclaims any warranties, express or implied, whether of merchantability of fitness for a particular use, except as expressly set forth herein. The sole obligation of BARSKA under this limited warranty shall be to repair or replace the covered product, in accordance with the terms set forth herein. BARSKA expressly disclaims any lost profits, general, special, indirect or consequential damages which may result from breach of any warranty, or arising out of the use or inability to use any BARSKA product. Any warranties which are implied and which cannot be disclaimed shall be limited in duration to a term of three year from the date of original retail purchase. Some states do not allow the exclusion or limitation of incidental or consequential damages or limitation on how long an implied warranty lasts, so the above limitations and exclusions may not apply to you.
