

# RIGHT NOW® BRONZE 8 (GD)

This mineral is designed to be fed to beef cattle on mature or dormant pasture or harvested forages.

### GUARANTEED ANALYSIS:

Calcium.....Min. 13.0 %	Max. 15.6 %
Phosphorus.....Min. 8.0 %	
Salt.....Min. 14.1 %	Max. 16.9 %
Magnesium.....Min. 2.0 %	
Potassium.....Min. 1.0 %	
Copper.....Min. 2,500	ppm
Iodine.....Min. 250	ppm
Selenium.....Min. 26.4	ppm
Zinc.....Min. 7,000	ppm
Vitamin A.....Min. 300,000	IU/LB
Vitamin D3.....Min. 30,000	IU/LB
Vitamin E.....Min. 300	IU/LB

### INGREDIENTS:

Calcium Carbonate, Dicalcium Phosphate, Monocalcium Phosphate, Salt, Processed Grain By-Products, Molasses Products, Magnesium Oxide, Soybean Oil, Potassium Chloride, Sodium Selenite, Vitamin E Supplement, Zinc Sulfate, Manganese Sulfate, Basic Copper Chloride, Ethylenediamine Dihydroiodide, Cobalt Carbonate, Mineral Oil, Vitamin A Supplement, Vitamin D3 Supplement, FD & C Red No. 40, FD & C Yellow No. 5, FD & C Yellow No. 6, FD & C Blue No. 2, Natural and Artificial Flavors Added.

**FEEDING DIRECTIONS:** Feed Right Now Bronze 8 free-choice to beef cattle on mature or dormant pasture or harvested forages. Average consumption should not exceed 4 ounces of Right Now Bronze 8 per head daily so as not to exceed the maximum allowable selenium intake of 3 mg per head per day. Provide fresh, clean water at all times. Allow at least one linear foot of mineral feeder space for each 100 head of cattle. Do not allow sheep or similar animals with a low tolerance to copper, access to Right Now Bronze 8.

When introducing Right Now Bronze 8 to cattle, it may be necessary to limit its intake for the first 2 to 3 weeks. Intake may be controlled by repositioning the feeder in either high or low traffic areas. To decrease consumption, move the feeder further away from water, loafing or shady areas. If repositioning the mineral feeder is not possible, or does not produce the desired results, granular or block salt may be offered in a separate feeder placed adjacent to the mineral feeder. Control the salt allocation to achieve target mineral consumption. Do not dilute Right Now Bronze 8 by mixing with salt as this will compromise the weatherization feature of this mineral.

Right Now Bronze 8 is a Superior All-Weather® Technology mineral, formulated to resist clumping caused by rain and humidity while significantly reducing mineral loss from the feeder due to wind.
