

70 YEARS OF SEA ENERGY

Discovered by Dr. Maynard Murray in the 1950s, Sea Energy Agriculture demonstrated the power of ocean minerals to supercharge soil, enhance nutrient density in plants, and support animal health.

Dr. Murray's initial experiments resulted in improved soil health and better nutrient uptake in plants. Further experiments showed these benefits extended to animals through improved growth and development, reproductive health, and overall vitality.

Our founder Robert Cain studied under Dr. Murray in the 1970s. He would then go on to launch SeaAgri and Sea-90 in the early 2000s. Although Dr. Murray is no longer with us, Robert carries on his knowledge and passion for Sea Energy Agriculture every day.

OCEAN POWERED REGENERATIVE AGRICULTURE

Ocean minerals naturally supercharge soil, enhance plant nutrient density, and support animal health and vitality.

MINERALS POWER LIFE

Plants and animals require all minerals and trace elements to maintain wellness. Without, cellular functions break down and health deteriorates. This is called the "Law of the Minimum."

Ocean life benefits from the mineral and trace element rich seawater they call home, and as a result are more resistant to disease and illness.

Sea-90 brings these same benefits to our land, plants, and animals through ocean mineralization and Sea Energy Agriculture.

Retention ponds in Baja, Mexico where Sea-90 is exclusively produced.

THE SEA-90 DIFFERENCE

Our exclusive source of ocean minerals in the Baja Peninsula features pristine ocean water from the Sea of Cortez enhanced by geothermal activity and mineral-rich alluvial topsoil.

Naturally solar dried, the resulting Sea-90 Ocean Minerals contain a balanced, comprehensive mineral and trace element profile not found anywhere else in the world.

Premium MINERAL SALT

With 5x the minerals and trace elements of leading competitors, Sea-90 Mineral Salt is the clear choice for your animals.

Available with Garlic!

Agriculture SOIL MINERALIZER

Supercharge your soil by multiplying and balancing your nutrient profile with Sea-90. Increase organic matter and CEC levels for your best harvest ever. Now with organic humate!

Agriculture FOLIAR MINERALIZER

Enhance the nutrient density of your crops, pasture, and produce with Sea-90 Foliar. Micronized to dissolve instantly for easy field application.
