

TERRO®

OUTDOOR/GARAGE

Garbage Guard™

Guardia de basura

HOW IT WORKS: TERRO® Garbage Guard utilizes controlled release technology to slowly diffuse a deep penetrating vapor in enclosed spaces for up to 4 months. The clean, odorless vapor is evenly distributed throughout the enclosed treatment area, killing visible and hidden insects on contact and preventing new insect infestations.

WHAT IT DOES: Kills flying and crawling insects including: flies, gnats, mosquitoes, moths, silverfish, cockroaches, spiders, beetles, earwigs, spider mites and other listed insects.

STOP! READ ENTIRE LABEL BEFORE USE. AVOID BREATHING VAPORS.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

RESTRICTIONS: Do not use in the food/feed areas of food/feed processing or food/feed manufacturing or food/feed service establishments. Do not use in areas where people will be for an extended period of time. Do not allow children to handle new or used strips.

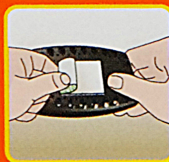

DIRECTIONS: This product may only be used in garbage cans, trash dumpsters and trash bins located **outdoors or in garages**. Remove pre-assembled pest strip from the sealed bag when ready to use. Place in the desired location away from windows and out of the reach of children and pets. Drafts, weather and other conditions may affect the performance, but treatment usually lasts for 4 months. Record the date of installation and replace with a new strip at the end of 4 months or when effectiveness diminishes.

Always use the appropriate size and number of strips for the space being treated. One 10.5g strip will treat 100 cu. ft. If more than one strip is needed for the space being treated, space strips evenly throughout the treatment area.

In Garbage Cans, (Trash Dumpsters, and Trash Bins): For the control of flies, attach the strip inside the can or dumpster and keep the lid closed. For superior adhesion clean surface of all residues before applying.
