

To Open

Storage Position

Always Open the ladder steps first by tilting the top step

Next raise the safety handrail

WARNING: Handrail must be down to open the step ladder. Failure to do so may result in damage

Listen for the audible click to ensure safety handrail is in the locked position

To Close

①

Fold the handrail first then ladder step.

②

Always retract the safety handrail first by squeezing the handles at the base of the handrail

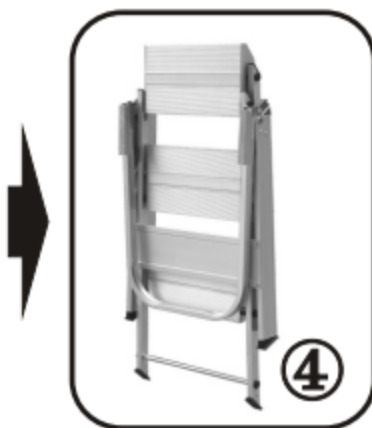

③

Next retract the steps by tilting the steps up

WARNING: Handrail must be retracted before closing the steps. Failure to do so may result in damage
