Did you ever use a product and say to yourself, "If I had made this I would have done this", or "I wonder why the manufacturer made it that way"? Have you ever wondered why nobody made a particular product or accessory? So as they say, if something is worth doing it's worth doing right!

We use our UTV's as both tools and toys. We hunt, fish, ranch and recreate with vigor and we don't like to spend a great deal of time attaching things- we'd much rather spend our time riding. Our approach is very simple: we build products based on input from you – people who use them day in and day out.

What's different about our products?

Engineering Design

Hornet products are designed with functionality, strength, and styling in mind. When new products are developed they're thoroughly field tested to see if they meet the requirements for durability and ease of use.

Fitment information

Printed catalogs come out twice per year but the web site is updated regularly. If you have a question not answered here, you can visit the web site for up to date fitment information or call 720-201-2276 or 303-588-2384.

No Tools Required

From the roofs to the racks and the accessories, nearly all of the Hornet products are tool-less installation. There is NO assembly. You simply take them out of the box, drop them on and tighten them down with the Hornet Twist Lock anchors and Twist Lock T Knobs that are provided with every product.

No Risk

Try our products for 30 days and, if you're not completely satisfied send them back for a full refund-no questions asked.

One More Thing

Some of our products are inspired by our customers so if you have an idea for a product give us a call or send us a note. If we like your idea we'll build one and send it to you for field testing before we run it through our customer evaluation process.

- Made in USA
- Includes 2 Roll Bar Machined Clamps
- Tool Less Installation

RCM-3012 Roll Bar Chainsaw Mount

MSRP $129.95

If you're looking for a chainsaw mount that is SOLID and still simple to install, this is it! Perfect for Utility vehicles as well as Sport vehicles such as the RZR, Ranger, General or other UTV's that have up to 1 3/4" Round roll bars.

The chainsaw sheath is machined from solid HDPE so your chain will stay sharp, and integrated in to machined solid Aluminum bases. RCM-3012 offers the best in support and security for your chainsaw when you want the flexibility to mount it on either a Horizontal or Vertical round roll bar or bumper. Fit round pipe/tube 1.5" to 2.0" diameter round tube/pipe. Includes 2 T knobs that tighten down on your bar so it won't rattle.

Chainsaw Bracket Rack Mount RZ-3006

MSRP $89.95

Chainsaw bracket machined out of solid High Density Polyethylene for maximum durability. Mount your chainsaw vertically for simple safe transport. Bracket includes all installation hardware to mount it on Ranger Bed Rails and most other racks. Tool less installation.

Fits the following Hornet Racks: RZ-570, RZ-800, RZ-900, RZ-915C, R-500, R-800, BR-500, BR-800, RZ-1000, Y-700, AC-500, G-1000, S-3014, A-200.

Ranger Chainsaw Bracket R-3012

MSRP $139.95

Machined from solid High Density Polyethylene and integrated to a solid steel welded and powder coated bracket, the R-3012 offers the best in support and security for your chainsaw. Can be mounted anywhere along the bed. Includes 2 Twist Lock anchors. R-3012 Fits 2006-2018 Polaris™ Midsize and Full Size Rangers all models. Also fits Polaris™ General all models and years.

Can Am Chainsaw Bracket CA-3012

MSRP $149.95

Machined from solid High Density Polyethylene so your chain will not come in contact with any steel components, and integrated to a solid steel welded and powder coated bracket the R-3012 offers the best in support and security for your chainsaw. 2 T knobs tighten down on your bar to keep the saw from rattling. The CA-3012 offers the best in support and security for your chainsaw. The mount is open on the bottom so you can accommodate a long bar. Can be mounted anywhere along the bed. Includes 2 Twist Lock anchors CA-3012 Fits Can Am Defender all models and years.

Rifle Scabbard R-3009-B

MSRP $59.95

(Fits Hornet R-3009 and R-3029 Scabbard mounts.) This gun scabbard is the Kolpin Gun Boot IV and Gun Boot 6.0.

Firefly™ Bow Mount F16MT16

MSRP $59.95

The Firefly™ Telescoping Bow/Camera mount is designed to attach directly to your treestand. While screw-in tree hooks and strap hooks work well in many instances, often you're unable to position your bow EXACTLY where you want it so it's easy to reach and minimizes movement when you need to pick up your bow for a shot. At other times, such as when hunting out of a tripod or a tiny top (small tree), a tree hook is not an option.

The Patent Pending Firefly™ Telescoping treestand mount comes equipped with 2 hooks and a Firefly™ Wind Detector holder so it's always within easy reach to test wind direction. The mount can also be used to hold a GoPro, Spotting Scope, or commercial video camera.

- Made in USA
- Telescoping mount is manufactured from seamless aluminum tubing
- Easily fits in your pack: Folds to 18" when contracted and 28" when extended
- Top of the tube can accommodate the included bow mount and Firefly™ holder or can be used to hold a camera, tripod, or Ozonics.
- Swing away design makes it easy to get in and out of your stand without the risk of bumping your bow.
- Attaches to ¾" or 1" common square tubing (most stands) and an insert option allows for attachment to stands made of oval or round tubing.
- Can attach to vertical or horizontal bars on the armrest, seat, foot base, or ladder rails.
- Unique universal base is machined from solid aluminum and attaches with no tools.
- Base attachment to telescoping assembly is also tool less and includes a gear hook for hanging your pack or quiver.
- Telescoping assembly powder coated for durability.
- Weight, 12 ounces
- PATENT PENDING.

Firefly™ Archery Accessory Case

MSRP $24.95

We took our Firefly™ Waterproof Case and reconfigured the insert to turn it into a great Archery Accessory Case; like no other case on the market. It's the perfect way to store and transport your broadheads, target tips, and field essentials and, when you need to put your cell phone away where it will stay dry you simply lift out the foam top shelf and tuck your phone neatly away. Large enough to be useful yet small enought to throw in your day pack.

The case is made with high impact ABS plastic, which makes it durable and long-lasting. The reliable stainless steel hinge and latch pins are corrosion resistant. Custom Die cut foam that fits the Firefly™ and Retractable Lanyard are standard on these cases. Thanks to the watertight seal, the watertight case will keep your valuables protected up to 80 feet (24 meters) underwater. They are crash-proof, so it won't break in case you drop it.
Interior Dimensions: 6.00 x 3.41 x 2.77
Exterior Dimensions: 6.47 x 4.13 x 3.26

Tree Stand Camera Mount U-4042

MSRP $79.95

Install your POV/GoPro Camera to your tree stand or other apparatus easily with NO TOOLS. Unique adjusting flexibility makes positioning your camera a snap. This high quality unit is super strong when locked down (tool less) and simple to adjust.

Features
- Aluminum and Stainless Steel Construction
- Double Ball Joint Design
- One Twist Locking of the Elbow and Both Ball joints
- 11" Length
- Equipped with 1/4"x20 Treaded ends and Go Pro Mount
- Tool Less Crab clamp makes clamping in place easy

Firefly™ Electronic Wind Detector

F09C02

MSRP $49.95

Firefly™ is a sophisticated, patented instrument designed using the latest state of the art technology. Firefly™ can determine wind drifts imperceptible to humans; down to 1" per second.

Operating Firefly™ is easy. Simply push the button. Firefly™ takes 512 readings per second, analyzes these readings and, after 3 seconds, reports the results in easy-to-interpret LED lights. Firefly™ continues to sample and report for 5 more seconds and then automatically turns itself off after 8 seconds of non-use. To take another wind reading, simply push the button.

Features
- Protective cover easily screws onto Firefly™ Waterproof Design
- Built in Compass
- Designed to determine wind drifts down to 1" per second
- Weather resistant housing is built to last.
- Specs: Height 4.63"; Radius 2.16"
- Weight under 3 OZ with batteries
- Operating temperature -35˚F to +110˚F
- Patented

Firefly™ Lanyard Pack F11AP09

MSRP $69.95

Makes carrying and using Firefly™ a snap with this 36" long spring retractable lanyard.

- Includes Firefly™ Electronic Wind Detector and Retractable Lanyard
- 60 lb. Break Strength
- Stainless Steel Cable with Nylon Coating
- Impact-Resistance Plastic Case
- Quick Connect (Q/C) System
- Measures: 1.5" x 1.95" x 0.575"
- Weight: 1.4 oz

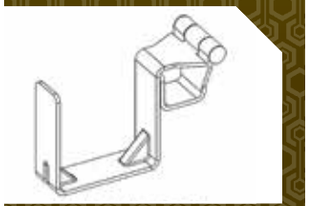
FEATURES:

- Patent pending hinged design for easy clip on
- 15 lb capacity per hook
- Black Powder Coat and Soft Tech Rubber surface coating
- Heavy Duty Secure Design with Neodymium Magnet
- "No Wiggle" Latch
- Simple tool less installation on 3/4" (1" also available)
- Positions your bow, rifle, pack, or crossbow within easy reach but still out of the way.

TSH-2 Tree Stand Quick Hook

MSRP $7.95

Have you ever climbed up in a tree stand in the dark and groped about looking for a place to hang your bow, rifle, or pack while you're perched on the top step? Anyone who has ever hunted out of a stand knows the frustration of finding a hook, especially if the stand is foreign to us such as outfitters stands and friends stands we're not familiar with.

The Hornet Tree Stand Quick hook was designed to simply pull out of your pocket and instantly attach to the square tube on a tree stand. It's available in ¾" (most common) and 1" and also special shapes such as the oblong tube used in Millennium stands.


The Patent Pending Quick Hook was designed to hold your pack, rifle, bow, or crossbow securely to your hunting stand while positioning it precisely where it's easy to pick up when it's time to make the shot. Simple tool less installation means you can install them permanently or take them with you on the go! Patent Pending Hinged Design is simple to install with no tools - even in the dark! Just put a couple in your pocket and take them from stand to stand.
