

EMSCO Group Landscape Rocks
Care and Maintenance Instructions

- Recommended for outdoor use only
- Product is made of polyethylene plastic and can be painted using compatible paints
- Do not use on structures or fixtures that require emergency access or must be accessible at all times. Consult owner's manual or regulating authorities if you have questions regarding specific devices and fixtures.
- Use caution when handling rocks as heavier models may pose a safety risk due to the thin edge at the base
- Use caution when covering utilities or fixtures that regulate water, gas or other potentially hazardous/dangerous liquids or materials.
- Due to the size and variability in the material, dimensions may fluctuate by up to 10% in all dimensions. Rocks can be flexed along the edges to better fit around specific spaces and geometry.
- Anchor holes may be difficult to locate due to the nature of the material. Drilling 1/8" holes on the bottom flange will allow additional anchor pieces to be used.
- Please note that any modifications to the product may void warranty.
- Do not allow children to play on rocks as they may represent a fall hazard.
- Unless otherwise stated, all EMSCO Group products have a 1-Year limited manufacturer's warranty effective from the date of purchase.
