MOSAIC GLASS BIRD FEEDER

Please read this manual carefully before use and save it for future reference.

CHOOSING A LOCATION

A shaded location is recommended for this mosaic glass bird feeder. Mosaic glass can have a mirror-like, reflective effect when placed in full sunlight, which can cast strong light reflections. Strong reflections of light may frighten birds, which makes selecting a location with limited sun exposure ideal.

CLEANING

1. Clean the inside of the feeder with mild detergent, warm water, and a soft cloth.
2. Rinse thoroughly, ensuring all soap residue has been removed.
3. Allow the feeder to dry completely before adding seed.

SAFETY STATEMENTS & WARNINGS

- Do not use harsh chemicals or abrasive materials to clean the unit as they may damage the product and void the product warranty.
- Do not hang the feeder too close to buildings or objects that may break the feeder during windy conditions. Storing the feeder indoors during high-wind conditions is recommended.
- Store indoors during freezing temperatures as exposure to freezing weather may cause the feeder to crack or break.

Any modification to the product or failure to follow recommended care will void the product warranty.
