Four functions. One great accessory.

Drill, countersink or counterbore.

Flip the modular insert.

Drive screws.

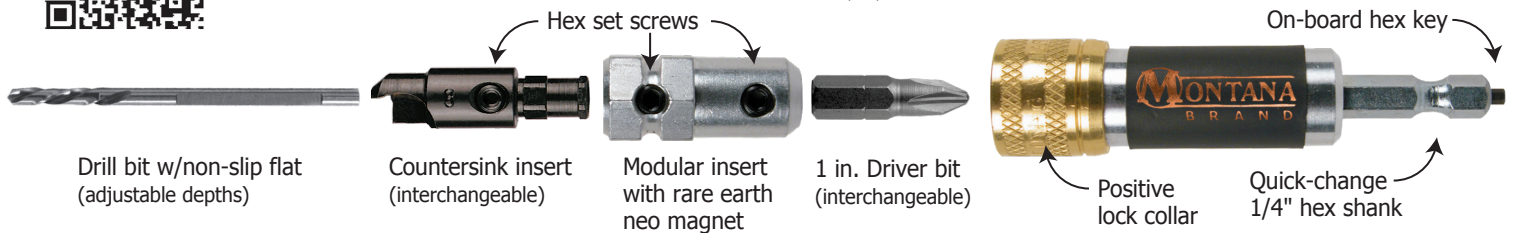

Drilling and driving? We've got the right tool.

New compact design for improved performance.

See it in action

U.S. Patent #5,470,180

Drill bit w/non-slip flat (adjustable depths)

Countersink insert (interchangeable)

Modular insert with rare earth neo magnet

1 in. Driver bit (interchangeable)

Features:

- Multi-function modular design
- Compact size
- On-board hex key
- Neo magnetic bit tip
- 1/4" quick change hex shank
- Positive lock insert collar

Benefits:

- Drill, countersink, counterbore and screw driver functions
- Compact size for improved use and maneuverability
- Convenient on-board hex key for fast tool changes
- Fast and easy drill/driver functions without rechucking
- Strong fastener retention
- Non-slip impact hex shank
- Secure locking modular insert

Value Proposition:

- The most popular drill/driver functions in one accessory
- Get jobs done quicker, easier and with professional results
- Fast, easy and convenient tool conversions
- Works with all drill/drivers
