

# Harness the Power of the Sun!

## Solar 15W Battery Charger/Maintainer with Solar Charge Controller

The SP-1500 with Charge Controller is the next generation maintainer/charger for all your 12 volt lead-acid batteries. Connect the solar panel with charge controller to your battery, when not in use. It automatically charges and maintains your battery without electricity and without fear of overcharging your battery. It's that simple.

Reliable and environmentally-friendly, its energy-saving performance will save you money on battery purchases by extending the life of your batteries. Built-in blocking diode protects against battery discharge at night.

Rugged design works in all weather conditions, is maintenance-free and includes pre-cut holes and mounting screws for easy installation.
