

Van Zyverden's
ALLIUM MIAMI

Allium are in the same family as garlic, onions, chives and shallots. This makes gardeners wonder if they should include them in their ornamental gardening plans since it conjures up images of supermarket produce. Allium's rounded blooms make for high drama and interest in the garden because good garden designs are often made up of different shapes. The allium group becomes more popular annually with over 300 species to choose from. They amaze everyone and few plants create this kind of wow in the garden. We will be adding many new varieties soon!

Large red-purple flowers

Perfect as a dried flower

Deer and rodent resistant

About This Variety: Allium Miami is a summer bloomer bearing large, dark purple flower heads on tall stems. Pollinators such as butterflies and bees love them, yet they are deer resistant and naturalize easily once established. They will even tolerate poor soil. Makes for excellent cut flowers

Growing Instructions: Since allium do not like wet feet, find a sunny location where the soil drains well. The bulbs will rot in wet areas. Aside from that, almost no maintenance is required.

Care Tip: Dig, divide and replant bulbs after a few years of decreasing flower production.

Exposure: Full Sun to Partial Shade

Height: Grows 32-36" tall

Spacing: Plant 8" apart, 5" deep

USDA Zones: hardy in USDA zones 3-9

Guaranteed to grow 1 year from purchase if directions are followed. Any concerns related to quality and/or counts feel free to contact us.
