

# OMEGA 3 & FATTY ACID SUPPLEMENT

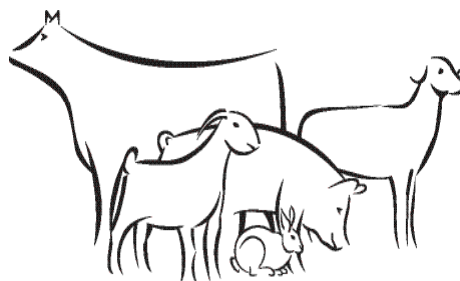

SHOW FORMULA MULTIPLE BENEFITS LIQUID FEED SUPPLEMENT

“ All of us in the Cattle show world are looking for the edge to keep our cattle looking, feeling and performing great. HealthyCoat does all of this and more. Our cattle look and feel great! I have noticed that I can feed less due to the increased utilization of the feed. When hauling cattle all over the country you have to constantly worry about the stress level you are putting your animals under. Are they going to stay on feed, are they going to show signs of bloat, and most importantly are they going to perform? With HealthyCoat I do not have to worry. This product has the rumen working so efficiently that my animals are getting the most out of their feed. No worry about bloat or weight loss and the increased stamina is awesome. Probably the best thing about this product is they can prove through results that it works.”

*Reggie Rodriguez, Ken Ramsey Brahmins Cat Spring, Texas*

## HealthyCoat<sup>®</sup> SHOW FORMULA

**FEED DIRECTIONS:** Shake gently, settling may occur. For top dressing grain, start gradually for average adult: Pigs 3/4 oz to 2 oz. Goat/Sheep 3/4 oz to 1 1/2 oz. Show Steers 2 to 4 oz. Rabbits 1/4 tsp per 4 lbs of body weight, mix with pellets or treats. To obtain maximum response for difficult skin and coat needs, higher levels may be fed.

**INGREDIENTS:** Mechanically extracted soybean and flax seed oil, Lecithin, Niacin supplement, Biotin, Vitamin B12 supplement, natural apple flavor, mixed tocopherols (Vitamin E as a preservative).

“says, he uses HealthyCoat on his Simmentals Show Bulls. We’ve seen our bulls rate of gain increase, they ate feed like there’s no tomorrow. It works great for giving extra energy without throwing them off feed.”

## ALL NATURAL HEALTHYCOAT® MULTIPLE BENEFITS

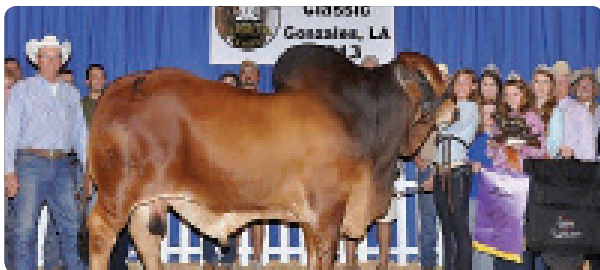

**HealthyCoat Is The Highest Quality Essential Fatty Acids For All Animals Including Pigs, Sheep, Cattle, Rabbits, Etc.**

Fatty acids improve the absorption of fat-soluble vitamins like A, D, E, and K and, with daily use, we guarantee visible results in 14 to 21 days.

HealthyCoat is a great tasting, all natural liquid feed supplement that gives animals more than just a “Healthy Coat” it improves their performance, condition, and overall health. HealthyCoat is processed without heat to concentrate and retain the raw nutritional value of our natural ingredients.

Our formula is 57% Omega 3 & 6 fatty acids, all naturally processed without chemicals or heat to retain nutritional benefits. Because of our patented processing system, HealthyCoat is loaded with vitamins A, D, Biotin, and K. And it contains vitamin E but, unlike most liquid supplements, the vitamin’s purest form is maintained for your animal’s maximum benefit on HealthyCoat.

All natural HealthyCoat has multiple benefits. The retention of raw nutrition creates a highly digestible energy source for your animal. It provides maximum energy to muscles. It’s ideal for boosting nutritional levels even for animals in stressful conditions. HealthyCoat reduces the amount of heat given off during digestion to keep your animal cool which makes it ideal top dressing for hot weather feeding. And HealthyCoat is prime for fast growing, lactating, underweight, animals training for competition, or animals that don’t seem to have the vigor they once had.

“Another improvement, we have noticed with our rabbits, is that we are actually able to feed less pellets and maintain good condition. Their appetites are great and their overall health seems to have improved. All of these improvements were things we knew to look for, because of the ingredients, and our predictions were confirmed by using HealthyCoat. We are very pleased with the results and will continue to use HealthyCoat.”
