

FEATURES

- Includes regulator and pressure gauge, 3 ft 1/4" braided hose with tire chuck and shut off valve.
- Heavy gauge steel allows tank to be pressurized up to 150 PSI.
- Industry leading PSI feature allows 20% more air to be compressed into the tank
- 10 gallon model @ 150 PSI will hold an additional 2 gallons of air more than the competitors 125 PSI tank. This equals 12 gallons of air!
- Ideal for inflating automotive tires and filling inflatable toys and balls.
- Excellent source of silent air for operating small brad nailers or staplers.
- 10 gallon tank will fire approximately 400 size 1-1/4" brad nails before it has to be recharged.
