# Assembly & Instructions

## Step 1

Handle Assembly: Press the spring loaded buttons on one end of the handle connector and slide it halfway into one of the handles and rotate it until the buttons snap into the holes of the handle. Repeat this process for the other half of the handle.

## Step 2

To expand the rake head, press down on the spring loaded buttons and push forward until fully open and springs lock into place.

## Step 3

Flotation devices are most effective when the two outermost velcro straps are attached on the two outermost teeth of the rake head.

# Operating Instructions

## Cast & Retrieve

The Cast and Retrieve option is great for removing weeds, algae or debris (both floating and submerged).

## Weed, Algae & Debris Removal

The 9' handle is designed for skimming or removing aquatic weeds, algae from shore.

## Beach Grooming

Remove the rope and floats and you have a professional grade rake to easily groom your beach sand.
