

STARCO Flex Lite

Say goodbye to flat tires...
FOREVER.

10 INCH WHEELS:

5/8" bushings installed to fit most axle configurations.

Standard 2-1/4" offset hub length, expandable to 3" hub length using included spacers.

13 INCH AND 15 INCH WHEELS:

5/8" bushings installed, plus 3/4" bushings included to fit most axle configurations.

Six 1/2" hub spacers included to provide hub lengths from 3" to 6".

Spacers can be used for centered and offset hub configurations.

- ▶ Available in multiple configurations to suit endless applications.
- ▶ Polyurethane tire construction provides about four times longer wear than conventional rubber compounds for pneumatic tires.
- ▶ Our Flex construction is designed to give an easy ride, comparable to traditional pneumatics.
- ▶ The polypropylene hub and bushings last longer than traditional metal bushings or bearings, which fail due to rust.
- ▶ Efficiency: STARCO Flex Lite wheels are ready when you are. Flat-free construction means no down time due to flats.
