HOW TO APPLY:

Distribute pellets from shore and/or boat. MuckOut works best if distributed evenly from shore or in the body of water.

WHEN TO APPLY:

Apply every two weeks when water temperature is above 50° F. Wait 3 days after an algaecide and/or herbicide treatment to apply MuckOut.

WATER USE RESTRICTIONS:

MuckOut may be applied to lakes and ponds used for irrigation and aquaculture. Water treated with MuckOut may be used for recreation, fishing and other activities immediately after treatment. Safe for recreational ponds, horses, livestock, birds,

pets, fish, wildlife and the environment. Do not apply to water that will be used for human consumption.

STORAGE AND HANDLING:

Keep product in original container and closed when not in use. Store in a cool, dry place. Do not allow to freeze. Wear rubber gloves when handling. Avoid dust inhalation. Avoid contact with skin, eyes and clothing. Wash with soap and water after use. MuckOut has a 5-Year shelf life.

ATTENTION:

Failure to use as directed, or sudden changes in water conditions not consistent with label, may result in the loss or injury of aquatic life. Airmax Inc. is not responsible for any loss of aquatic life. This product is non-genetically altered and non-pathogenic. The microorganisms used to develop this product can be found naturally in soil and water.
