

Van Zyverden's
ASTILBE ERIKA

Astilbe are very popular, rugged, versatile, shade lovers that thrive in moist conditions. They produce colorful, elongated flower plumes above divided fern-like green foliage in the summer and add bursts of impressive color to the garden landscape. Best yet, they are low maintenance, attract butterflies but are deer and rabbit resistant. They are quite diverse with hundreds of varieties to choose from, each overachieving in providing splendid flower shows. Use them in groups or en masse to create a ground cover. Great for cutting when they are half opened.

*Continuous bloomer
throughout the season*

Made for the shade

*Each plume consists of hundreds of
blossoms opening in succession*

About This Variety: Erica is a tall variety with flower plumes on upright stems. Its foliage starts out reddish which turns darker green later in the season.

Growing Instructions: Plant in organically rich, evenly moist, well drained soils.

Care Tip: Does not tolerate hot summer temperatures and is a good choice for moderate climates. Likes moist conditions.

Blooms: June to July

Exposure: Partial shade

Height: Grows 18-24" tall

Spacing: Plant 15-18" apart, 1.5-2" deep

USDA Zones: Hardy in USDA zones 4-8

Guaranteed to grow 1 year from purchase if directions are followed. Any concerns related to quality and/or counts feel free to contact us.
