ABOUT US

DK2 is a leading manufacturer of power products and automotive accessory items. Our line has expanded into 5 categories of products; Snow Plows, Trailers, Winches, Auto Accessories, and Power Products.

We believe in providing quality first and are focused on delivering our products to our customers on time and in accordance with their ever changing needs.

We believe that our business can – and should – have a positive impact on the communities we serve.

With Distribution Centres in both Canada and the US, we service a wide range of wholesale and retail channels by maintaining our commitment of providing products that are designed and created with high ethical standards.

LIMITED 1 YEAR WARRANTY

WHAT IS COVERED

DK2 Inc. warrants to the original purchaser of any DK2 product that it will be free and clear of manufacturing defects in workmanship and materials under normal use and service for a period of one (1) year from the date of the original purchase.

If within one (1) year from the original date of purchase this product fails due to defect in material or workmanship, Detail K2 will repair, replace, or supply any defective part at our option. Upon expiry of one (1) year, Detail K2 will have no further liability related to the product. Detail K2 does not authorize any party, including its authorized distributors or dealers, to offer any other warranty on behalf of Detail K2 Inc.

THIS WARRANTY DOES NOT COVER OR APPLY TO:

- (a) Damage to the product due to misuse, mishandling and abuse
- (b) Improper installation, maintenance and storage
- (c) Expendable parts such as nuts and bolts, pins and springs
- (d) Normal wear and tear
- (e) Consequential damage & incidental damages such as damage to persons or property

PROCEDURE FOR OBTAINING A RETURN AUTHORIZATION

Within the one (1) year warranty period, the purchaser of the product must notify an authorized distributor or dealer of the claimed defect and provide proof of original purchase. At this time the validity of the claim will be determined and a Return Goods Authorization Number (RGA) will be issued if approved. No returned product will be accepted under warranty unless accompanied by an RGA# issued by Detail K2 Inc.

RESOLUTION FOR A DEFECTIVE PRODUCT

Detail K2 Inc. will at its option repair or replace the defective product covered by this warranty. The repaired product will be shipped to the purchaser upon completion. All transportation charges shall be the responsibility of the purchaser. Any damage in transit will be the responsibility of the carrier or at the risk of the purchaser.

EVEREST SNOW PLOW FULLY HYDRAULIC Custom Mount

**Item Number: EVST9022
UPC: 826518005579**

DESCRIPTION

DK2 is proud to bring you the ultimate snow plow solution in our line up - the DK2 Everest.

This prosumer, fully hydraulic snow plow kit provides you the opportunity to clear your parking lot, driveway, or laneway whenever required. With our fully hydraulic system you can raise, lower, and angle the snow plow blade from inside your vehicle using our wired hand held remote.

For extreme durability against the elements and rust, DK2 combines an industrial powder-coated paint finish on the blade with hot dipped galvanized hardware components to keep your plow looking new for years.

The plow itself simply clips to a DK2 custom fitted vehicle mounting system and can pretty much mount to anything that's fit to push snow.

SPECIFICATION

- Blade (W x H): 88" x 22"
- Assembled Plow Weight: 380 lbs
- Shipping Dims (wdh):
Box 1: 46.5" x 24.25" x 14"
Box 2: 37" x 34" x 23"
- Shipping Weight: 425 lbs
- Construction: Steel tube & sheet
- Colour/Finish: Black industrial powder coated blade skin and all other components
- Lift System: Hydraulic
- Angling System: Hydraulic, multiple positions
- Control System: Wired remote control to lift, lower, angle left or right
- Vehicle Mounting System: Custom bolt-on mounting brackets *Sold Separately
- Scraper Blade: Powder coated steel, replaceable
- Included: Snow Deflector, Skid Shoes

FEATURES

- Ships partially assembled (mount & wiring required).
- Simple bolt on custom fitted mounting brackets, no drilling or welding required (sold separately).
- Hydraulic system lifts and lowers blade (a more reliable repetitive-use mechanism than a winch).
- Light weight, no need to alter stock suspension.
- Black UV powder coated components with an industrial painted blade skin.
- Self leveling foot provides max blade tip clearance when the blade is fully raised.
- Skid shoes to assist guiding the blade edge over uneven terrain or from possibly marking those more delicate driveways.
- Snow Deflector to assist directing snow forward and also minimizing windshield spray.
- Blade markers to point out blade tips.
- Hydraulic positioning.
- Wired hand held control.
- Reliable industrial hydraulic lift systems.
- Blade hardware holds the hydraulic pump so it can get rolled away from the vehicle rather than being left on the truck with the mount.
- Thicker trip springs to ensure tension remains strong and coils tight for optimal performance when encountering obstacles.
- Existing holes in plow frame make it easy to add bolt-on accessories.
- Bolt on accessories and upgrades available.
- One-year manufacturers warranty.

HITCH-MOUNTED MOTORCYCLE CARRIER

**Mounts to any 2”
hitch receiver**

Item Number: TMC201
UPC: 693495970561

DESCRIPTION

How to determine weight capacity

To determine the weight capacity for the Detail K2 Hitch Mounted Motorcycle Carrier, you must first determine the tongue weight limit of your hitch receiver AND the tongue weight limit of your vehicle. Take the lesser of these two figures and see the chart opposite:

Hitch / Vehicle Tongue Weight Limit (use lowest figure)		Max. Carrying Capacity of K2 Carrier	
300 lb.	136 kg	180 lb.	82 kg
350 lb.	159 kg	225 lb.	102 kg
500 lb.	227 kg.	350 lb.	159 kg
750 lb.	340 kg	450 lb.	204 kg

Example 1 If you have an SUV with a hitch receiver max. tongue weight of 500 lbs, AND your SUV manufacturer states that the maximum tongue weight for your vehicle is 500 lbs, then the maximum weight you can load on the Detail K2 Hitch Mounted Motorcycle Carrier is 350 lbs.

Example 2 If you have an SUV with a hitch receiver max. tongue weight of 500 lbs, BUT your SUV manufacturer states that the maximum tongue weight for your vehicle is only 350 lbs, then the maximum weight you can load on the Carrier is 225 lbs.

FEATURES

- Extremely versatile, Extremely secure and stable: patent-pending design results in snug, “anti-wobble” fit.
- Tilts down to allow easy loading: one-person operation
- Easily installed and removed: no extra tools required
- Ideally suited for SUV, RV, or pickup truck with cap
- Features adjustable front wheel channel (to accommodate different sized bikes) and retractable tie-down bar
- Comes with safety chains and hitch pin
- Fits standard 2-” class III or IV hitch receiver: weight capacity dependent on receiver strength
- Black UV powder-coat finish

SPARTAN 6000 ELECTRIC WINCH

Item Numbers:

6000

6000-SR

DESCRIPTION

Warrior Winches are delighted to announce the arrival of the new member of Spartan Series, Tough, Strong and ready for Battle. The Spartan 6000 Lb short drum model is ideal where space and payload are limited. The winch has a short drum and is less than 66Lbs, however the extended drum supports allow it to carrier up to 131ft of 0.28" cable. The Synthetic rope version comes fitted with 0.27" x 98ft.

We really believe these to be the best value for money Winches around, a lower price does not mean that we have had to compromise the core values integral to a good winch, such as reliability and durability.

With great performance, outstanding features included as standard, & backed by the Warrior Winches un-rivalled limited Lifetime Warranty, this should make a Spartan the first choice for all serious enthusiasts.

PREDATOR

PREDATOR 10,000 LB DUAL MOTOR PERFORMANCE WINCH

**Item Number:
P10000D-SR**

DESCRIPTION

The Predator is designed for hard-core competition. Two powerful 7.2HP sealed motors provide performance that is truly out of this World. Together with a 108:1 ratio 3 stage planetary gearbox, this winch handles the most extreme off-road punishment.

With a surprisingly low draw of only 140 amps (at no load), the Predator also contains an innovative “multi stop” 10% ratchet brake design, which provides zero drag when returning the “cable in”, and is situated away from the drum to prevent any damaging heat transferring to your Armortek or Synthetic rope.

The steel drum flanges are precision machined to 0.39” on either side to resist the unique loading characteristics of synthetic rope, while the Alloy Carbon gears are heat treated and tempered to 62HRc rating for extra strength. This Warrior from another dimension will mercilessly prey on its weaker rivals, hunting the opposition down. At 10kg lighter than any of its nearest competitors, with off-load line speeds from 65ft per minute & available with or without synthetic rope, there’s a Predator out there, ready & waiting, for everyone!

T1000

T1000 ELITE COMBAT WINCHES

Item Numbers:

T1000-100

T1000-145

T1000-220

DESCRIPTION

The T1000 Series Winches are built specifically for military use, able to withstand extreme climates and temperatures. Features include hardened 3 stage planetary gears for reliable and efficient use in the harshest environments. The waterproof remote control has thermometric LED indicators signals to monitor the temperature of the motor and high temp lithium grease is used which doesn't solidify in extreme climates. Coupled with corrosion & chemical resistant matte black powder coat & a stainless steel fairlead makes this a formidable winch able to withstand whatever is thrown at it.
