

Gravel Tuff GTF-1058CHENF Never Flat Extreme Tire

The Gravel Tuff GTF-1058CHENF Never Flat Extreme Tire is an innovative product with a weight capacity of 330 lbs. – perfect for a wide variety of tasks. Eliminate the problems of damaged or flat tires with this alternative tire. 10” tire with a steel rim with an offset hub length of 2.25”. This Never Flat Extreme Tire is perfect for use as a replacement tire on hand trucks, wagons, dollies, and carts. The bearing I.D. measures 5/8” with a hub width of 2.25”. This unique and specialized design will not go flat – even when not in use and when under a load after sitting for a period of time. The Never Flat Tire weighs only 3 lbs. for convenient and effortless transport. The powder-coat finish on the hub resists corrosion for a long-lasting product.
