1.

BUILD A WALL WITH TALL POSTS

Hold a Board on the ground so it's standing on edge with the notched ends to the left and right. Slide a Tall Post down over one notched end of the Board. Next, slide another Tall Post over the other notched end. This forms a wall.

Repeat Step One to complete a second wall.

2.

BUILD A FRAME

Place the walls parallel to each other and connect them into a square with two more Boards. This forms a 4ft. x 4ft. frame.

3.

BUILD A WALL WITH SHORT POSTS

4.

CONNECT THE WALL FROM STEP THREE TO ONE SIDE OF THE COMPLETED FRAME

Extend two Boards parallel to each other from the Tall Posts on one side of the completed frame, and slide the wall from Step 3 over the other ends to complete a second frame.

5.

ADD A SECOND BOARD TO ALL WALLS

Add Boards, one at a time, directly on top of each existing Board in the Frame. Push the Boards down evenly between the tops of Short Posts and Tall Posts. If needed, tap snugly into place with a rubber mallet.

6.

FINISH WALLS & ATTACH DECORATIVE CAPS

Now slide the remaining Boards down into the Tall Posts to finish each of the walls. Attach each Decorative Cap to a Post with a screwdriver and one Screw. We recommend drilling a pilot hole first for each Screw.
