

Parts Include:

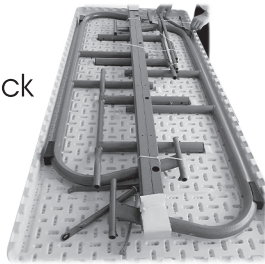

- A- Table Top Rails (2)
- B- Bench Rails (4)
- C- Legs Lower Base (2)
- D- Upper Table Legs (2)
- E- Leg "Y" Hinges (2)
- F- Hinge Anchor Rod (2)
- G- Bench Support Rod (2)
- H - 5*30mm Self-Tapping Screws (36)
- I- 9.9*10.73mm Screw Caps (4)
- J- 182.7L*75.5W*74.3H cm Resin Table Top (1)
- K- 182.7L*23.5W*48H cm Resin Benches (2)

Step 1:

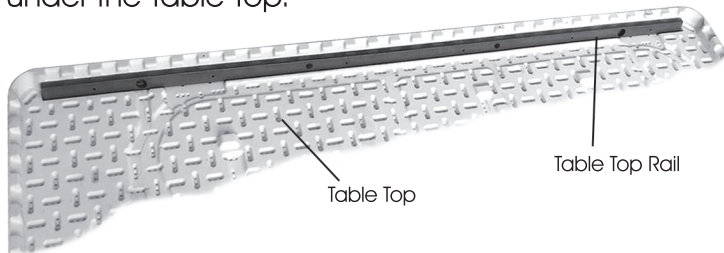

Remove the benches from the assembled package and unpack all the parts.

Completely read the assembly instructions before starting.

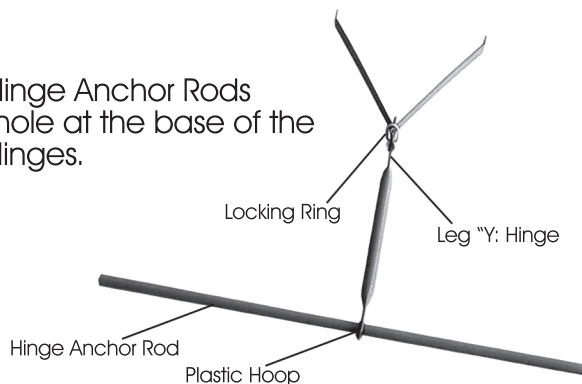

Step 2:

Place one of the Table Top Rails in position under the Table Top.

Step 3:

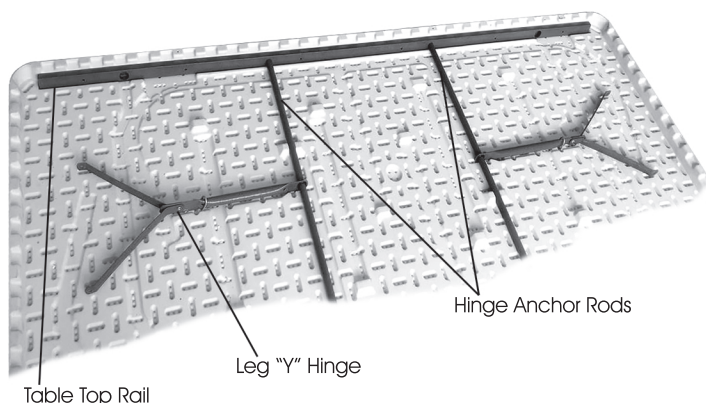

Slip the Hinge Anchor Rods through hole at the base of the Leg "Y" Hinges.

Step 4:

Insert one end of the Hinge Anchor Rods into the positioned Table Top Rail.

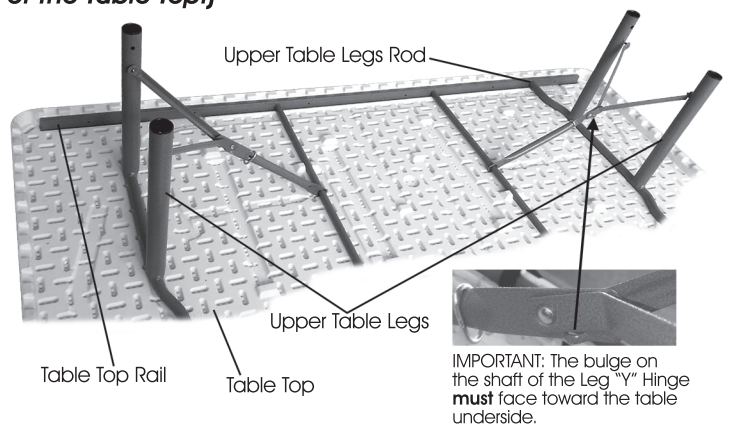

(Note the position of the Leg "Y" Hinges.)

Step 5:

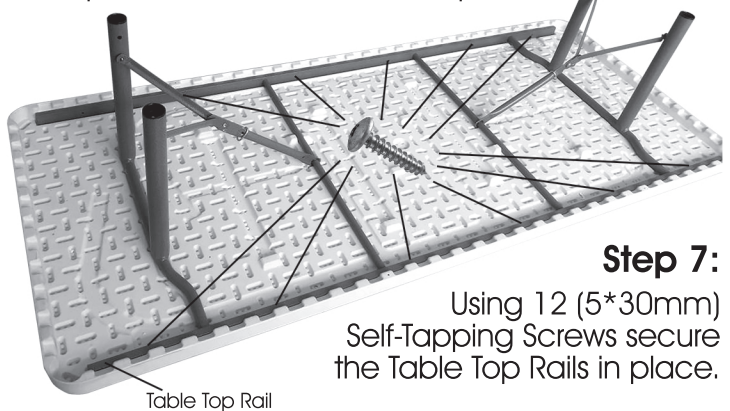

Insert one end of the Upper Table Legs Rod into the large hole in the positioned Table Top Rail.

(Note: the shape of the base of the Upper Table Legs should match the indentations in the underside of the Table Top.)

Step 6:

Insert the open ends of all four (4) the rods into the other Table Top Rail then place the rail in position under the Table Top.

Step 7:

Using 12 (5*30mm) Self-Tapping Screws secure the Table Top Rails in place.

Step 8:

Attach the open ends of the Leg "Y" Hinges to the bolts welded into the Upper Table Legs and securing with the four (4) 9.9*10.73mm Screw Caps.
