

Hearth Products Eligible for Tax Credit

The thermal efficiency (HHV) of the below qualifying Wood Burning stoves has been determined to be equal to or greater than 75% and therefore its purchase and installation costs qualify for the tax credit under section 25(C) of the Internal Revenue Code through the "Inflation Reduction Act, 2022" for qualified energy property.

This Investment Tax Credit is in effect for any property purchased and installed from January 1, 2023 through December 31, 2032.

Homeowners should consult their tax advisor to determine whether they qualify for any potential income tax credits.
