

TRAP-N-KILL[®]

YELLOW JACKET, WASP & HORNET TRAP

EASY DIRECTIONS

1. Remove bait packet and cable tie. Fill jar with 2 cups of sugar water or non-citrus juice. Sugar water can be made by adding ½ cup of sugar to 2 cups of water, stirring until dissolved.
2. Add 1 small, pea-sized drop of dish soap and the contents of the bait packet. To increase catches, add a dime size portion of protein bait like fish, cat food, hot dog or hamburger meat.
3. Hang the trap securely away from food areas and out of reach of children and pets. Traps can also be placed on the ground.
4. The enclosed adjustable cable tie can be looped through the pre-attached hanger to secure the trap to larger tree branches or fence posts. Cable tie can be easily removed or adjusted by pressing down on the clip to release the end.

DON'T FORGET...

Rinse and re-bait the trap when full of insects. Use 4-6 traps per yard for best results.
