If you purchased the medium or large size canopy, connect three (3) of the rods together. **NOTE:** If you purchased the XLarge canopy you will have four (4) rods to connect together.

Locate the underside of the canopy and slide each rod diagonally into the sewn in sleeves. Keep feeding the rods through the sleeves until they can be seen sticking out on all

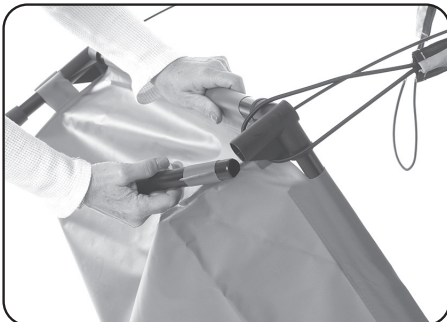

four corners of the canopy. Turn canopy over with logo facing up and insert support rods into each of the four corners of the pool. There are support holes located on top of each corner joint. (Figure 2)
