

Blue Point Juniper

Juniperus chinensis 'Blue Point'

- Light Needs

Full sun

- Water Needs

Once established, water occasionally; more in extreme heat.

- USDA Zone

4 - 9

Plant Care

Highly adaptable and easy to grow in most well-drained soils; avoid overly wet conditions. Water deeply, regularly during first growing season to establish an extensive root system; reduce frequency once established. Apply a slow release fertilizer before new growth begins in spring. Prune annually to shape.
