

# Oso Easy® Double

## Pink Rose *Rosa* x

Imagine your garden with non-stop pink roses!

Oso Easy® Double Pink rose is simply an unstoppable bloomer. With true pink blooms, it has proven to be powdery mildew and black spot resistant. If you want to enjoy months of flowers with minimal effort, this rose deserves a spot in your landscape. Perfect for containers, landscapes, and as accents!

Top reasons to grow Oso Easy® Double Pink rose:

- This plant just can't stop blooming.
- True pink flowers have a cheery yellow center.
- Excellent disease resistance means good looks and minimal maintenance.

Continuous Bloom or Re-bloomer

**Garden Height:** 18 - 24 Inches

**Spacing:** 18 - 24 Inches

**Spread:** 18 - 24 Inches

**Flower Colors:** Pink

**Flower Shade:** Pink

**Foliage Colors:** Green

**Foliage Shade:** Green

**Habit:** Upright

**Container Role:** Filler

## **PLANT NEEDS**

**Light Requirement:** Sun

**Maintenance Category:** Easy

**Blooms On:** New Wood

**Bloom Time:** Summer through Fall

**Hardiness Zones:** 5a, 5b, 6a, 6b, 7a, 7b, 8a, 8b, 9a, 9b

**Water Category:** Average

**Soil Fertility Requirement:** Average Soil

**Uses:** Border Plant, Landscape, Mass Planting, Specimen or Focal Point

### **Uses Notes:**

Thanks to its easy-care nature and powerful ability to bloom, Oso Easy Double Pink rose makes a nice choice for planting in your landscape or gardens.

### **Maintenance Notes:**

Roses flower the most and exhibit the best disease resistance when they get a minimum of 6 (ideally, 8+) hours of sun each day. Good air circulation also helps roses look their best, so avoid planting in stagnant areas or spacing too closely to taller plants.

Prune back to large, vigorous buds in early spring, when the new growth begins to emerge on the stems. Fall pruning is also an option, particularly for those in warmer climates or where heavy snow loads may be a concern.
