

# Oso Easy Double Red®

## Landscape Rose *Rosa* x

There's so much to love about Oso Easy Double Red® rose - its lush, deep red color. The way the blooms are held on long stems, well above the foliage, for a truly memorable display. And speaking of foliage, it's a beautiful, lustrous green with excellent resistance to powdery mildew and black spot, so it stays looking good all season. No need to deadhead to keep those beautiful blooms coming, too! Oso Easy Double Red rose is a bit of a bigger plant - about 3-4'/.9-1.2 m tall and wide, but give it enough space in a sunny location, and you've given yourself the gift of an easy-care rose that you'll love to look at all season long.

Top reasons to grow Oso Easy Double Red rose:

- Large and full red blooms.
- Blooms all summer without the need to remove old flowers.
- Very disease resistant and easy to grow.
