

FRONT-ATTACH

# PALLET FORK 1200

One of the best all-around tools for your home, farm, or ranch. Attach it to the front of your tractor to lift items up to 1200 lbs.\* Great for moving pallets of pine shavings, square hay bales or logs - this implement will get the job done. The all-in-one frame design features adjustable 42" heavy-duty steel fork tines. The Pallet Fork 1200 works well with loaders equipped with universal quick-attach and skid steer attachment systems. Features our durable, corrosion-resistant finish for long life out in the elements.

*\*Capacity based on balanced load placed no more than halfway out from head unit. Do not exceed the capacity of your front-end loader attachment or tractor.*
