

BASE-CLAMPS HOW IT WORKS:

STEP 1

Select the right size clamp
(Various sizes sold
separately)

STEP 2

Select the base & ring
clamp that coincides with
what you need to mount
2A. Use protective film to
prevent any paint
damage **2B.**

STEP 3

Lock it in place

The self locking clamp design
allows for easy one person
installation. Simply slip the clamp
over tube and lock in your base,
secure using the stainless
mounting hardware and you are
ready to Mount Up and Move Out.

NOTE: Ring clamps 2" & over in size may
require pre-stretching to help spread the
clamp over the tube. (Use Protective film
when mounting)

ADJUSTABLE WHIP / FLAG MOUNT BASE

INSTRUCTIONS

STEP 1

Choose a mounting location (A)

STEP 2

Before mounting the Adjustable Whip Mount base to the appropriate sized clamp ring for the vehicle (B*), use a 3/16" hex key to adjust the whip mounting angle (C) and tighten.

Note: Do not exceed 200 inch-pounds.

STEP 3

Position & mount Adjustable Whip Mount base by clicking clamp rings into the base. Then use a 3/16" hex key to fasten the screw & nut (D) included with the ring clamp. Continue until clamp is tight and does not move.

Note: Do not exceed 200 inch-pounds.

Clamp Removal:

In-order to remove the clamp from location, the clamp must first be tightened to allow base removal. Once tightened, loosen the clamp and carefully squeeze clamp to remove from the location.

Note: Use protective film to help avoid damage to the paint.

* Various ring clamp sizes available (sold separately w/ hardware).
