This product has components that are made of wood, a natural product than can have variations in texture and color depending on temperature and humidity. This means that the wood can expand during periods of high humidity and contract or shrink in times of low humidity. The expansions and contractions can cause minor scratches and cracks in the surface. After a period of time, wood can change color, which is a natural process. This does not affect the durability of the wood. Please enjoy the beauty and variability of this natural product!

If you do not plan to assemble your item shortly after opening, please store the remaining pieces away from sunlight and moisture.
