POWER GRADER

- 60 in (152 cm) grading width.
- Adjustable grading depth while in motion using the cabled remote control.
- 14 carbide-tipped grading teeth to loosen hard-packed dirt and gravel.
- Rear leveling blade spreads material evenly.
- Reversible grading board with toothed or flat edge.
- Towable with most vehicles, including ATV, UTV or tractor.

FEATURES

- **Powered, Cabled Remote Control:** Rechargeable battery, powerful electric motor, and precise remote control raise or lower the teeth with the touch of a button.
- **Tungsten Carbide Scarifying Teeth:** 10 times harder than steel. Same material used on mining equipment to cut through solid rock.
- **Rechargeable Battery:** Easily removed without tools to bring indoors during the off-season. Charger is included.
- **Powered Actuator:** Powerful actuator provides a 4 in (10.2 cm) stroke, raising the teeth from 4.5 in (11.4 cm) above the surface, to 9/16 in (14.3 mm) below the surface. Steel box housing shields it from the elements and kicked-up debris.
