CLOTHING & GEAR TREATMENT

**REPELS & KILLS TICKS,
MOSQUITOES,
CHIGGERS & MITES.**

**ADDED PROTECTION FOR YOU AND YOUR
LOVED ONES AGAINST DISEASE
SPREADING TICKS AND MOSQUITOES.**

- **Summit[®] Green Armor Insect Repellent** — **REPELS & KILLS MOSQUITOES & TICKS** when used as a treatment to gear and clothing.
- Use as a treatment for gear, tents, mosquito netting, screen enclosures, canopies, backpacks, sleeping bags, ground cloths, camping chairs and hammocks.
- **Perfect for hiking, camping, hunting, gardening** — any outdoor activity that exposes you to ticks and mosquitoes.
- **Green Armor Insect Repellent is a Ready-to-Use Permethrin** which adds an odorless layer of protection to shirts, jackets, pants, socks, shoes, sleeping bags, tents, netting, and other outdoor, camping, hunting, and travel gear.
- **Permethrin spray** bonds to fabric fibers for up to **6 weeks of exposure to sun and air or 7 washings.**
- Use with an EPA registered exposed skin insect repellent for maximum protection.

Economical!
**Treats 7 Full Outfits &
LASTS UP TO 6 Weeks
(Even after Washing)**

- 1 **Apply to fabrics, tents and gear only.**
Do not apply directly to skin.
- 2 **To apply, spray directly onto clothing and gear with a slow sweeping motion, keeping the bottle about 6 to 8 inches away, and treating each side of the garment for about 30 seconds.**
- 3 **Allow garments to dry thoroughly for two hours after treatment and before wearing.**

When used as a treatment for clothing and gear kills and repels mosquitoes and ticks that may carry West Nile, Dengue, Lyme, Rocky Mountain Spotted Fever and other dangerous diseases.
